RESEARCH & DEVELOPEMENT COMMITTEE

FUNCTIONS

1. To create passion amongst students and faculty members towards research and innovation.
2. Creating centers of research in various domains of research and promoting research activities in various departments of the Institute.
3. To work closely with the industrial needs that eventually will result in new or improved products, processes, systems or services that can increase the productivity.
4. To foster collaborations with industries and stakeholders for mutual benefits.
5. To establish collaboration with other universities, public and private sectors and identify R & D projects including consultancy services which could be undertaken at the institution.
6. To ensure smooth operation and effective management of R&D at the institute.

RESPONSIBILITIES OF THE COMMITTEE

1. The committee shall promote research and development activities by motivating students and members of faculty for publication of research papers.
2. R & D committee will motivate Faculties and student researchers to get patents for their works.
3. To organize regular seminars, workshops and conference on innovations in emerging trends and in technologies with a special focus on innovation.
4. To organize regular industrial trainings for the students, adequately considering market needs.
5. To organize regular industrial visits for the students so that they may be aware of the trends going on in the industry in present scenario.
6. Projecting and presenting research modals, tools and techniques on different platforms of university, AICTE and country as well.
7. Encouraging technical writing for SCOPUS and SCI indexed journals in all faculty and students based on the research conducted.
